DECLARATION OF K.S.R.

I, K.S.R., declare under penalty of perjury that the following is true and correct to the best of my knowledge:

1. I was born in Holguin, Cuba. I am a 27-year-old asylum seeker detained at t_ 2. In Cuba my husband was on television in the States (US) television programs and community members. He was found in Cuba as soon as he was released and dragged by authorities to jail in Cuba.
3. Other than this politically motivated as I was released, I fled the island and

seek asylum in the US as political dissidents because we feared for our lives and safety. I
flew to Uruguay in or about

17, 2019, I was provided a parole denial letter in English with a box checked off indicating I was a flight risk. I was given no other information. I noticed that the denial letter was marked as denied on December 3, 2019, the same day I was given the parole advisal.

8. Since then, I have applied for a redetermination of my parole request approximately three times, each time providing additional evidence. All my efforts have failed. My proposed sponsor is the same person who served as my husband's sponsor. He is my US citizen cousin who lives in Tampa, FL. I have presented to ICE the following evidence: of my cousin's 2018 tax returns, evidence of his US citizenship, copies of his bills, additional letters of support from family and friends residing lawfully in the US, documentation of my clean criminal history, and a copy of my birth certificate. However, ICE refuses to release me, continuing to provide denial letters checking off the "flight risk" rationale without further explanation. I have been separated from my husband for about five months.
9. Here, Deportation Officers (DOs) provide us misinformation or conflicting information when they visit the dorms. Sometimes they tell us no one will be granted parole. Sometimes they tell us our requests will be denied if the sponsor is not an immediate relative. Other times they tell us the requests will be denied if the proposed sponsor does not make more than seventy-thousand dollars (\$70,000) annually.

Conditions of Confinement

10. The conditions in this facility are terrible. Water constantly drips from the walls in my dorm and my bed sheets always wet. The food we are provided is often frozen and always undercooked. It is also lacking in nutrition and frequently gives us all diarrhea. We are mistreated by GEO officers, humiliated and yelled at like we are violent prisoners.

11.

15. Our beds are approximately sixty (60) centimeters apart and it is impossible to practice social distancing. We all use the same three (3)

noticed, however, that one dorm's quarantine is being taken much more seriously. Officers do not enter that dorm. They feed the women through a slot. This is the Alpha Bravo dorm, which we suspect had a confirmed case of COVID-19.

20. We know from the limited news we are able to watch and from our loved ones on the outside with whom we communicate, that this virus will spread very quickly under these conditions. Some of the women detained here are doctors in their home countries and they try to educate us as well. We are afraid we will be left to die in this place. It is a heartbreaking irony, after so many of us fled to the US for fear of death in our home countries.

Plans if Released on Parole

21. If I am released on parole, I plan to reunite with my husband who lives with my cousin and our designated sponsor in Tampa, FL. I plan to self-quarantine to keep us safe from COVID-19 infection and to keep fighting my asylum case with the help of my family outside of this facility.
